Chapter 2

English-Portuguese dictionary

2.1 Introduction

This is the Portuguese part of the internet dictionary project. The original was translated with tab2dic perl script that comes with dicttex.

This example has just 900 words so it is a good example (20 pages in A5 format).

Some abbreviations used in this dictionary are:

- nv - common name
- v - verb
- vt - transitive verb
- vi - intransitive verb
- vp - preposicional verb

Well that's not true but dictionaries usually have a section like this...
