
ETAPS 2007

European Joint Conferences on Theory And Practice of Software 2007

March 24 - April 1, Braga - Portugal

http://www.di.uminho.pt/etaps07

Main Conferences

CC International Conference on Compiler Construction

ESOP European Symposium on Programming,

FASE Fundamental Approaches to Software Engineering

FOSSACS Foundations of Software Science and Computation Structures

TACAS Tools and Algorithms for the Construction and Analysis of Systems

Invited Speakers

Rance Cleaveland - Univ. of Maryland, USA

Bertrand Meyer - ETH Zürich, Switzerland

Don Batory - Univ. of Texas at Austin, USA

Andrew Pitts - Cambridge Univ., UK

Jan Bosch - Nokia, Finland

Radha Jagadeesan - DePaul Univ., USA

K. Rustan M. Leino - Microsoft Research, USA

Important dates

Octobre 6, 2006 - Abstracts of research and tool demonstration papers for the main conferences

Octobre 13, 2006 - Full version of research and tool demonstration papers for the main conferences

Satellite Workshops

ACCAT Applied and Computational Category Theory

AVIS Automated Verification of Infinite-State Systems

Bytecode Bytecode Semantics, Verification, Analysis and Transformation

COCV Compiler Optimization Meets Compiler Verification

FESCA Formal Foundations of Embedded Software and Component-Based Software Architectures

FInCo Foundations of Interactive Computation

GT-VMT Graph Transformation and Visual Modeling Techniques

HAV Heap Analysis and Verification

HFL Hardware design using Functional Languages

LDTA Language Descriptions, Tools and Applications

MOMPES Model-based Methodologies for Pervasive and Embedded Software

OpenCert Foundations and Techniques for Open Source Software Certification

QAPL Quantitative Aspects of Programming Languages

SC Software Composition

SLA++P Model-driven High-level Programming of Embedded Systems

TERMGRAPH Computing with Terms and Graphs

WITS Workshop on Issues in the Theory of Security

Universidade do Minho
